

- ➔ **The best 2½ days you can invest in your OH&S Career.**
- ➔ **The gold standard in CRSP Examination Preparation courses.**
- ➔ **Not only will you learn ... you'll have FUN doing it.**

## **CRSP Examination Preparation Workshop**

**Safety Results Ltd. offers a dynamic 2½ day workshop designed to help safety practitioners prepare to successfully write the Canadian Registered Safety Professional (CRSP) examination.**

### **The Workshop**

The current failure rate on CRSP exams is roughly 30% - 40%. We believe that this high failure rate occurs because candidates don't fully understand the depth and comprehensive nature of the exam and as a result, don't prepare properly. More importantly, they study in a haphazard way and easily become overwhelmed with the volume of information from which exam questions are drawn.

The objective of our workshop is to help you prepare your personal study plan and focus on the competencies that you need to master before the exam.

The workshop enables participants to identify their individual strengths and weaknesses in the 124 competencies that form the basis of the CRSP examination. The competencies are grouped into 11 categories (domains) and the fundamental information in each category is reviewed and discussed.

Participants will complete simulated exams which will identify gaps in their knowledge and skills. This gap analysis can be used to develop your own study plan and strategy. A Workshop Manual and additional practice exams are provided for on-going practice and study.

### **About the CRSP Examination**

The examination is prepared by the Board of Canadian Registered Safety Professionals (BCRSP) and is written nationally 2 times a year, in May and October. It is 3½ hours long and consists of 190 to 210 multiple-choice questions. The purpose of the exam is to assess the degree of mastery of a set of competencies that reflect the combined knowledge, abilities, skills, attitudes and judgement of an entry level registered safety professional.

For more information on the exam go to the BCRSP website. [www.bcrsp.ca](http://www.bcrsp.ca)

## What Students Are Saying ...

*"I would recommend this course to anyone writing their CRSP as it was the most detailed prep course."*

*"I felt the course was very good, informative and a great start towards a student's future. Very good instruction, excellent communication skills and content knowledge".*

*"I just wanted to say thanks as I don't believe I would have been properly prepared without your prep materials and course delivery. I would highly recommend to any of my peers thinking of writing the CRSP exam to take your prep course first".*

*"Thanks Alan and Jim for the great job in the CRSP prep course. I believe it was key to my successful completion of the exam!"*

## Edmonton Workshop Schedule

### Day One 12:30 pm – 4:30 pm

Math & Sciences Review – Learn and Practice the important mathematics & sciences formulas. This is an added value refresher to assist in your success.

### Day Two 8:30 am – 4:30 pm

Instruction & Gap Analysis of the 11 Domains and 124 Competencies of the CRSP Examination. Each Domain will be explored in detail and participants will complete simulated examinations. Group discussion is facilitated to share peer knowledge.

### Day Three 8:30 am – 4:30 pm

Instruction & Gap Analysis of the 11 Domains and 124 Competencies of the CRSP Examination is continued. Each Domain will be explored in detail and participants will complete simulated examinations. Group discussion is facilitated to share peer knowledge.

## Why choose Safety Results?

- seasoned instructors with vast experience in Adult Education and most importantly, OH&S Program Management and Consulting
- dynamic and engaging Adult Educators
- highly experienced UofA, UofC & NAIT Instructors in OH&S Certificate & Diploma Programs
- CRSP, CSP and Occupational Hygiene expertise
- Safety Results added value: extra take home examination questions (an \$99.00 value), ½ day math & sciences refresher session, free calculator and light lunch/refreshments during the two full days.
