#### **10 Tenets of Implementing Safety Logically**

##### **Article by Alan D Quilley CRSP**

Happy New Year!

I hope 2020 is both safe and healthy for all. In this, my 35th year as a Canadian Registered Safety Professional, I'm going to focus on "Safety Logically!" I'll admit that I've read about doing safety "differently" and apparently, it is in it's "second version" and I can honestly say for those of us who have been paying attention for the last few decades, these are neither a new version nor any different that many of us have been doing at least since the 1980's.

So, I've chosen to focus 2020 on logically applying what we know with some certainty works to achieve safety excellence. Not unlike my Integrated Safety Management System (ISMS) that I first wrote about in 2005 in the "The Emperor Has No Hard Hat - Achieving REAL Workplace Safety

## Supercharge Your Incident Investigation Skills

### Article by Alan D Quilley CRSP

On April 5, 2018, I presented an intensive workshop to the Calgary Chapter CSSE, challenging participants to “Supercharge” their Incident Investigation Skills. I thought now was a good time to share my program with my followers:

My course, as per my outline in the presentation, specifically focused on the following goals:

- Rise above the “Investigation Form” or “Causation Model”
- Explore the Energy/Barriers of hazard analysis and incident causation
- Reducing the “disconnect” between the investigation and control of hazards and incidents when in fact they really are the same thing.
- The Nine Critical Investigation Phases (Focus of A Few)
- Creating a “Go Kit” for quick reaction to your incidents and hazards
- How to interview witnesses and gather critical evidence
- How to evaluate gathered evidence because all evidence is not created equally
- How to tell the incident story through pictures and diagrams
- How to develop preventive measures that will enhance your Safety Culture effectiveness
- Check your recommendations using the “Silly Safety Test
- The importance of following-up your recommendations

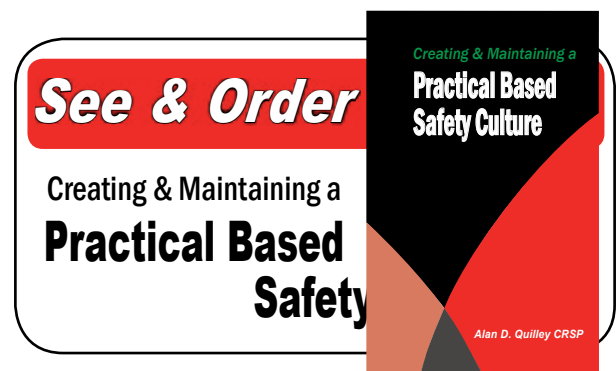

My workshop process explored how to:

- Stop Filling in Software and Paper Forms
- Become an Investigator – Don’t let the

Results,” the Ten Tenets of Implementing Safety Logically are inter-connected and inter-dependant. In 2020, look for more exploration of these Ten Tenets and a series of articles in my Opinion Column in OHS Canada and in our Safety Results Ltd. Newsletters.

### The Ten Tenets of Implementing Safety Logically

- 1) Do safety WITH people and not TO people
- 2) Don’t jump to a safety solution because it’s quick. Efficient AND Effective should be the desire
- 3) Use evidence to support what you do to enhance safety. You need data to make good decisions
- 4) Measure what you do - not what doesn’t happen to you
- 5) Stop relying on auditing! If you need an auditor to tell you what you are doing...you don’t know what you are doing!
- 6) Acknowledge efforts to create safety over those that just celebrate non-injury outcomes
- 7) Recognize the need for the Psychosocial aspects of your safety efforts
- 8) Be patient – Change takes time – Quick fixes rarely last
- 9) Keep learning what works and let go of what doesn’t work
- 10) Stay connected and informed on what is new and should be considered

Software/Reporting Form decide what you need to know and do.

- Let the facts tell you what happened and what to do about what happened.

I am pleased to offer, for your download a PDF of my session, and share with your fellow OH&S practitioners. I do obviously ask however that if you share, you ensure to credit my work.

To access, please either click

### **CSSE Edmonton Study Group**

Our friends at Edmonton's Chapter of the CSSE are again presenting a CSSE Study Group for those studying for the CRSP. The group will meet Wednesday and Saturday starting Jan 8th, with the last session on Feb 5th. For more information and to register, send an email to [Trevor Johnson](#).

### **Where's AI?**

2020 ACSA Conference  
Edmonton Convention Centre  
March 9 & 10, 2020

2020 CSSE PDC  
St. John's Convention Centre, St John's NL  
September 27-30, 2020

We will have more details regarding Alan's sessions, dates and times in our next newsletter.

### **Compliments for our CRSP**

### **Examination Preparation Workshops**

"If you are looking for a CRSP Prep Course, Safety Results is the best choice; they provide you with the course materials that help organize and maximize your study time preparing you to take the exam.

Alan and Marie treat you like family and you can ask them questions at anytime; Alan's experience and passion for safety is contagious.

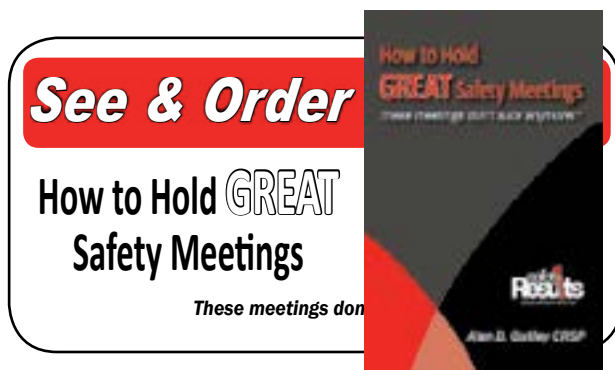

I highly recommend using Safety Results, their course is worth every penny!"

*"I had taken the online training and wasn't successful. After taking the in-person CRSP preparation training with Al Quilley, I was provided with structure in how to study and set a study plan. It lifted the overwhelming feeling and to take it one topic at a time.*

*The use of the practice questions and flashcards absolutely helped me out along with tracking progress and flagging areas to improve on. This is a great prep course and a definite recommendation to all taking the CRSP exam".*

"I wrote the October CRSP exam...and recently received my results and am delighted to say I was successful!

I can honestly say that the information provided and knowledge shared at the Safety Results CRSP study course contributed to me being successful on my first attempt at writing the CRSP examination. Thank you Marie and Alan!"

## Compliments for our CRST Examination Preparation Workshops and Study Material

“It was extra challenging without (the) BCRSP study guides.

I am grateful to Safety Results for creating the CRST study materials, manual and practice exams alike. The manual guided my studying and the practice exams helped me to find my knowledge gaps and where I needed to study more. I focused my studying on what was in the manual, and it paid off as I have received confirmation that I successfully passed the exam. I am very pleased and proud. Thanks!”

“Thank you Alan for the amazing prep class! Feel so much more confident about going to write the exam in August!”

## CRST EXAMINATION PREPARATION WORKSHOPS

Sherwood Park	January 10 - 12, 2020	7 seats left
Sherwood Park	April 27 - 29, 2020	(Perfect timing for those of you writing August!)
Sherwood Park	October 23 - 25, 2020	

When the BCRSP introduced the new designation/Blueprint in late 2018, we carefully designed our study material and Workshop to match the specified domains and competencies. We want to ensure that our clients are studying for the RIGHT exam.

Our intense 3-day CRST Examination Preparation Workshop fee is \$849.00 + GST.

Here’s why we know we can help and why you should thoroughly investigate your options before choosing your CRST Examination Preparation Workshop and product provider.

Our Workshop includes the following:

- Material mapped to the 2019 CRST Exam Blueprint
- Our Manual and Workbook
- Our Handbook that contains more practice questions and answers (Handbook is available only to participants at the workshop)
- Material is enclosed in a coveted Safety Results canvas attaché bag which includes pen, highlighter, calculator, notebook for notes and Post-its.
- Lunches and refreshment breaks
- Special offer – We were the first workshop provider with a special offer for participants of our Workshop: If you challenge the BCRSP’s 2019 Blueprint CRSTEX and are unsuccessful, you may attend another sponsored Safety Results Ltd. CRST Examination Preparation Workshop for a nominal fee. The workshop must be taken within one year of your first workshop with us, be based on the 2019 Blueprint and further conditions apply - please check with us for more details.

For further details on our CRST Workshops, please click [here](#).

We also offer the same material our students receive in our Workshops for sale on our website. Currently, we offer a CRST Examination Preparation Manual and Workbook. For more information, please visit this [page](#).

## CRSP EXAMINATION PREPARATION WORKSHOPS

Sherwood Park	January 15 - 17, 2020
Sherwood Park	April 20 - 22, 2020
Sherwood Park	August 12 - 14, 2020

Our intense 3-day CRSP Examination Preparation Workshop fee is \$999.00 + GST. Here's why we know we can help and why you should thoroughly investigate before choosing your CRSP Examination Preparation Workshop and product provider.

Our Workshop, with study material continuously updated to the current 2015 BCRSP Exam Blueprint, includes the following:

- Our Manual, Workbook, Series 1 and Series 2 Multiple Choice FlashCards
- Our Handbook that contains more practice questions and answers (Handbook is available *only* to participants at the workshop)
- Material is enclosed in a coveted Safety Results canvas attaché bag which includes pen, highlighter, calculator, notebook for notes and Post-its.
- Lunches and refreshment breaks
- Special offer – We were the first workshop provider with a special offer for participants of our Workshop: If you challenge the CRSP exam and are unsuccessful, you may attend another sponsored Safety Results Ltd. CRSP Examination Preparation Workshop. Workshop must be based on the 2015 BCRSP Blueprint and additional conditions apply - please inquire for details.

***When broken down, the value-added features, the quality of our material and our instructor cannot be beat. We've been training adults for 20+ years and we're extremely proud of what we offer.***

### **What makes us different?**

- In a nutshell, everything. We were the first provider with a special offer (see above). We've kept statistics on our pass rate... and recently determined that we are holding a 97% pass rate for those that have either taken our workshop/purchased all of the study material, and stayed in touch with us. We've had students that have taken our Workshop after taking other providers' and all have overwhelmingly informed us that ours is of significantly higher quality, not only due our content, process and format, but also due our instructor, Alan Quilley.

***"It's really important to know who is trying to teach you something". - Alan D Quilley CRSP***

Alan Quilley CRSP is our engaging, dynamic instructor and he will teach you how to study, and truly demonstrate that you can enjoy learning. He's a **proven industry leader in safety**, a working CRSP who not only consults, but also trains within North America and internationally. He actively works with companies, helping them create their Health and Safety programs. He doesn't just teach it, he lives it. With his decades of practical experience in OH&S, highly qualified in adult education and the techniques to help you focus your studies, why would you look elsewhere? When selecting a Workshop/products, take the time to research. What have other providers done? What are they doing now? From the feedback that we've received from our workshop participants, we're sure you will enjoy Alan's teaching style. Safety training doesn't have to be dry and boring.

Our format is the best, and we've been told that. Over and over again. Don't get taken in by cheap imitations. We offer high value and complete quality in everything we do and we stand behind our products and Workshops. For more details and to register, please visit our [CRSP Workshops](#) page.

And remember that if you are unable to attend one of our Workshops, you can purchase the very same Manual, Workbook, Multiple Choice/Quick Answer and Long Answer FlashCards that our students receive in our Workshops. Visit our [CRSP Exam Prep Materials](#) page for more details!
