New Product! CRSP Exam Prep Long Answer FlashCards!

They're here! Alan has been working very hard the last couple of months creating new product, our "Long Answer" CRSP Exam Prep FlashCards! The box contains 300 questions with answers (not multiple choice). The thinking behind these flash cards is based on, "if you can describe it to someone else, you probably know the subject matter well enough to expertly answer questions." These questions are NOT designed to imitate those you will see on the BCRSP Examination. (The CRSPEX is presented with multiple choice answers. For those types of multiple choice questions, please see our "CRSP Examination Preparation Workbook" and our "CRSP Examination Preparation FlashCards). To purchase the new cards, please visit our [website](http://www.safetyresults.ca).

For participants taking part in our Workshops this July, August or September, we are pleased to inform that you will receive a box of the new FlashCards at the Workshop, free, at no additional cost! Another reason to take one of our CRSP Examination Preparation Workshops this year!

How Do You Improve your Golf Game? Make the hole bigger! Making Safety Easier!

(Adapted from: Creating and Maintaining a Practical Based Safety Culture©)

Article by Alan D Quilley CRSP

There are very few sure things in life. However, there are ways to increase your chances of success when the outcome is not assured. In the game of golf, where you hit a very tiny ball with a variety of clubs across a very large field, trying to get it into a small little cup embedded into the ground, there are many chances of failure. If you've ever played the game you know exactly what I'm talking about. If you haven't...don't try this at home!

You can do a lot of things that will make it more likely that you'll get the tiny ball in the small cup in as few hits as possible (those who know the game call these stokes...I think that's because if it takes you too many stokes to get the ball in the hole you have a STROKE).

If you ask a golf pro what they do, they will tell you that they:

- 1) Have very good tools (clubs, balls, shoes and a very trendy outfit with a nice hat with an endorsement sponsor logo on it)
- 2) Practice hitting balls with those expensive clubs
- 3) Keep in shape through exercise
- 4) Eat right and get enough sleep
- 5) Get coaching

It's actually a very intense process. The other way they could improve their game is to simply make the hole bigger!

There is no single thing that we could do to decrease the number of strokes it takes to get that tiny golf ball in the cup, except to make the hole bigger. Now I know that doesn't ensure that every golfer will get a better score. So it isn't a sure thing, but we have certainly increased our chances.

Golf is not unlike managing our safety programs; we need to do a lot of activities to get safety to happen. We can, of course, increase our chances of success by making our goal easier to attain. In safety there are some common things that we can do to make it more likely that we will hit our goals of safety and therefore reduce the change of injuries and illness.

So don't forget to engineer your places of work to increase the chances you'll meet your goals. Giving your employees the right equipment, the proper anchor points to attach to, and the proper tools won't guarantee that safety will be the outcome, but it sure increases the chances!

FORE!

Compliments for our CRSP Examination Preparation Workshops!

"Taking the prep course was instrumental in my passing of this exam as it gave me a structure to work with and not be overwhelmed by the information that has to be covered. Without Alan's guidance on how to prep for the exam, I would have gone down many rabbit holes that would have taken away valuable study time that would be better utilized in other areas of the material. Thank you very much for the assistance and I will recommend the prep course to anyone who is planning on writing the exam".

"I expected the course to be a big study session, a weekend of someone trying to cram as many facts in my head as possible for the exam. What I was delighted to find was it was more centered around both learning what to study as well as tips & tricks for studying. Basically what I am trying to say is that for me this course was definitely worth it and in my opinion it was a great way to maximize my studying efficiency. I passed the exam!"

CRSP Examination Prep Workshop August 16 - 18 in Calgary!

Calgary - we've been listening and we're coming to town to deliver our infamous CRSP Examination Preparation Workshop! The Workshop is taking place August 16 - 18, and does have a minimum participant registration to run. If you are wanting to take part, please don't delay - book your spot early! For more details and to register, please visit our [CRSP Workshops](#) page.

On the Net

I've been involved lately in several conversations about Risk. What quickly becomes apparent to me is that MANY contributing to the discussions most certainly have little or no understanding of statistical probability and how that is related to Risk assessment. Click [here](#) for a very BASIC explanation. Enjoy.

Another vital piece of knowledge if we're going to be giving advice to others about "safety management" and "risk management" is Statistical Process Control(SPC). Please take the time to look at [this](#) approach to using data to help give GOOD advice.

Thank you for your fantastic comments - we really appreciate receiving testimonials such as these!

Congratulations again!

CRSP EXAMINATION PREPARATION WORKSHOPS 2017

Sherwood Park
Calgary
Sherwood Park

July 21 - 23, 2017
August 16 - 18, 2017
September 22 - 24, 2017

Our intense 3 day CRSP Examination Preparation Workshop fee is \$949.00 + GST. Safety Results Ltd. wants you to be successful in becoming a CRSP. Here's why we think we can help and why it's important to research fully when you are comparing CRSP Examination Preparation Workshop providers!

We are an Alberta based business (since 1999) - support your local economy!

Our Workshop includes the following:

- Material updated to the current BCRSP Blueprint
- Our Manual and Workbook (\$600.00 value)
- Our CRSP Exam Prep Multiple Choice/Quick Answer FlashCards (\$105.00 value)
- Our CRSP Exam Prep Long Answer FlashCards (\$105.00 value)
- Our Handbook which contains additional practice questions and answers (Handbook is available *only* to participants at the workshop)
- Material is contained in a coveted Safety Results canvas attaché bag which includes pen, highlighter, calculator, notebook for notes and Post-its.
- Lunches and refreshment breaks
- Special offer – We are the *only* workshop provider that has a special offer for participants of our Workshop: If you write the CRSPEX and are unsuccessful, you may attend another sponsored Safety Results Ltd. CRSP Examination Preparation Workshop for a nominal fee. The workshop must be taken within one year of your first workshop with us and further conditions apply - please check with us for more details. If you see other providers with this same offer, it will be because we did it first.

When broken down, the value added features of our Workshops cannot be beat. For more details and to register, please visit our [CRSP Workshops](#) page.

Please note that if you have registered for a workshop, but not paid for your spot, we are not holding a seat for you.

And remember that if you are unable to attend one of our Workshops, you can purchase the very same Manual, Workbook, Multiple Choice/Quick Answer and Long Answer FlashCards that our students receive in our Workshops. Visit our [CRSP Exam Prep Materials](#) page for more details!
